SKILLS

Languages:	C, C++, Python, JavaScript
Tools/Platforms:	MySQL, IoT & Embedded Systems, Web Development (HTML, CSS), Git/GitHub
Soft Skills:	Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Smart Safety Helmet for Coal Miners ESP32, Arduino, IoT, Sensors, GPS, Wokwi	May' 26
- Developed an IoT-based smart safety helmet to monitor hazardous environmental conditions, including toxic gases, temperature, flames, and obstacle proximity.. - Integrated multi-sensor modules with an ESP32 micro-controller and simulated circuit logic via Wokwi to ensure fail-safe hardware reliability. - Implemented GPS tracking protocols for accurate miner localization and rapid response during underground mine hazard events.	
Humanity OS - Sustainability Dashboard Platform	Nov' 25
- Created a futuristic sustainability dashboard platform designed to track environmental metrics. - Implemented complex responsive layouts and interactive modules using HTML, Tailwind CSS, and JavaScript. - Engineered UI logic and interactive components to deliver a seamless and responsive user experience.	

ACHIEVEMENTS

Infernoverse 24-Hour Hackathon – Geeks forGeeks LPU Chapter
Developed <i>Humanity OS</i>, a sustainability dashboard, within 24 hours, demonstrating rapid prototyping, problem-solving, and teamwork.

CERTIFICATES

Microsoft Generative Ai <i>Coursera</i>	May' 26
C NeoCollab	April' 25
Python Infosys	Nov' 23
SQL <i>HackerRank</i>	Aug' 25

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 25 – Present
Computer Science and Engineering; CGPA: 8.20	
CPS Raxaul	Raxaul, Bihar
Intermediate with PCM;	May' 23 – May' 24
Percentage: 70%	
TCS Raxaul	Raxaul, Bihar
Matriculation	Apr' 21 – Apr' 22
Percentage: 80%
